BODY TREATMENTS

ALGAE WRAP { 50 minutes | 75 }

This treatment involves full body application of seaweed or algae in a foil wrap. Both of these ingredients are rich in vitamins and amino acids, which can be absorbed through the skin. Algae and seaweed wraps are thought to aid in detoxification by causing the body to release toxins through sweat.

SALT GLOW { 45 minutes | 75 }

Hydrotherapy treatment using the Vichey shower. Sea salt rich in trace minerals is mixed with warm massage oil to exfoliate the top layers of dead skin from the whole body (excluding the face). Leaves your skin moist, glowing, and satin-smooth.

MUD WRAP { 50 minutes | 75 }

A relaxing wrap designed to moisturize and condition. Skin is covered in mud for a shorter or longer period. The mud causes sweating, and proponents claim that mud baths can slim and tone the body, hydrate or firm the skin, or relax and soothe the muscles.

BODY POLISH { 45 minutes | 75 }

A popular body treatment that exfoliates and hydrates your skin, leaving it smooth and soft. A body polish is primarily a treatment for the skin -- sort of like a facial for the body. Done with any number of materials, mixed with massage oil and aromatic essential oils.

ACNEIC BACK TREATMENT { 60 minutes | 85 }

Specific treatment for back acne, rough & dry or problem skin on an area that is hard to reach. Cleansing and steaming to loosen up dead skin cells, exfoliating, and extractions are included in this specialized treatment.

FACIAL AND BODY WAXING { 15-75 }

Facial, Brazilian, upper body, leg and bikini. Get smooth, sleek and sexy. Waxing isn't just about hair removal, it is also considered a skin care treatment. Our waxing services will leave your skin hair-free and fabulously smooth. Before your first waxing service, please allow a minimum of ten days of hair growth. Call for details.

ELECTROLYSIS HAIR REMOVAL { 1.50 per minute }

Electrolysis is a method of removing individual hairs from the face or body. Electrolysis destroys the growth center of the hair. After a very fine probe is inserted into the hair follicle, the hair is removed with tweezers. Most areas of the body can be treated with electrolysis, including the eyebrows, face, abdomen, thighs, breasts, and legs. There are generally no permanent side effects, but sometimes a temporary, slight reddening of the skin may occur.

CHEMICAL PEEL (bareMinerals® m.d. formulation) { 65 }

Chemical peels are a form of exfoliation that treat a number of conditions, including dull, aging skin, fine lines and wrinkles, and hyperpigmentation. Chemical peels work because they are highly acidic, loosening and eradicating dead skin cells. This allows newer and healthier skin to rise to the surface.

FACIAL TREATMENTS

All of our facial treatments start with deep cleansing followed by a lovely facial, neck, and shoulder massage. These help to increase circulation as well as relieve stress and tension from the neck, shoulders, and the facial muscles.

SPA FACIAL { 60 minutes | 70 }

Includes a deep cleansing facial treatment and mask that improve circulation, adding nutrition for the skin and penetrating hydration for the face.

MUD FACIAL { 60 minutes | 70 }

Nutrient-rich dead sea mud assists in exfoliation of the facial skin and deposits minerals to aid in strengthening of the facial skin.

SIGNATURE FACIAL { 60 minutes | 85 }

Age defying facial that utilizes intense absorption of vitamins and minerals formulated and performed specifically for the individual needs of the client. Multiple masks and facial machine functions are used according to the needs of the client.

ACNE TREATMENT FACIAL { 60 minutes | 85 }

Unclogs pores, destroys bacteria, controls oil, and helps heal existing blemishes. This facial uses cleansers and masks formulated specifically for acneic skin, including facial machine functions to aid in removal of blackheads and drying of whiteheads.

COLLAGEN FACIAL { 60 minutes | 75 }

The client receives cleansing massage (face, neck, and shoulders) and steam, finishing up with a cold, collagen gel mask. This cool, refreshing mask helps to reduce swelling of the face while the facial skin absorbs rich nutrients that are infused into the gel mask.

STEAM FACIAL { 60 minutes | 95 }

Includes the application of steam throughout the treatment to aid in deeper penetration of nutrients that are infused into the facial treatment products and masks. These products and masks are selected according to the individual needs of the client.

MICRODERMABRASION FACIAL { 60 minutes | 110 }

Employs all the steps and treatments of our Signature Facial with the addition of using the microdermabrasion facial machine function to safely remove the deeper dead, dry skin discolorations. This treatment should be done in a series of ten treatments to experience the most dramatic effects.

DERMAPLANE FACIAL { 60 minutes | 95 }

A non-invasive treatment which exfoliates the top layer of skin as well as vellus hair (peach fuzz). Painlessly removes dry, dead skin revealing a smoother and more even tone and texture. This brightens the skin. It softens the look of fine lines, wrinkles, and superficial acne scarring. This service is great for all skin types.

bareMinerals® MAKEUP APPLICATION { 25 }

The look of beautifully bare skin, free of preservatives, oil, fragrance, talc and other skin irritants.

AIRBRUSH MAKEUP APPLICATION { Starting at 60 }
